Deadline for manuscript submissions:

30 September 2019

Message from the Guest Editors

The 11th Joint Meeting on Medicinal Chemistry 2019 (JMMC 2019) (<https://www.jmmc2019.cz/>) will take place in Prague, Czech Republic, on June 27–30, 2019. This year 2019 marks 20 years of history of this traditional Joint Meetings, founded in 1999 by Prof. G. Ronsivalle (Italy) together with Prof. A. Lipkowski (Poland) and Prof. G. Toth (Hungary). The main aim of the Joint Meetings is to promote Medicinal Chemistry, attract young scientists, and foster relationships between medicinal chemists of the participating countries. The success of last 10th JMMC 2017 (249 participants from 28 countries) illustrates the importance of this kind of meetings. We are pleased to invite medicinal chemists from all over the world to come, stimulate discussion on drug discovery and development, and promote collaboration between medicinal chemistry scientists, both young and experienced.

The JMMC 2019 participants are cordially invited to contribute original research papers or reviews to this Special Issue of *Biomolecules*. We welcome submissions of previously unpublished original work within the broad scope of medicinal chemistry.

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Dr. Vladimir N. Uversky

Molecular Medicine, University of
South Florida, Tampa, USA

Message from the Editor-in-Chief

Biomolecules is a multidisciplinary open-access journal that reports on all aspects of research related to biogenic substances, from small molecules to complex polymers. We invite manuscripts of high scientific quality that pertain to the diverse aspects relevant to organic molecules, irrespective of the biological question or methodology. We aim for a competent, fair peer review and rapid publication. Please look at some of the exciting work that has been published in *Biomolecules* so far. We would be delighted to welcome you as one of our authors.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: Indexed in the Science Citation Index Expanded (SCIE - Web of Science) and in **Scopus**. Citations available in **MEDLINE** (PubMed), full-text archived in PubMed Central.

CiteScore (2018 Scopus data): **5.72**, ranking 33/407 (Q1) in 'Biochemistry' and 44/375 (Q1) in 'Molecular Biology'.
